To Whom It May Concern:

ACG LLC, Inc. worked together with the Boston Conservation Commission staff to investigate, address, and properly handle the necessary environmental issues regarding the work done on The Hollow Project for the Thompson Island Outward Bound Education Center (TIOBEC) located in Boston Harbor. Some of the issues that were covered included: wetlands delineation, the 100 year floodplain, sea level rise considerations and permits issued under the Massachusetts Wetlands Protection Act.

Sincerely,

Stephanie Krueel, Executive Secretary
Boston Conservation Commission
